Program Methodology...

The curriculum includes:

- ◆ Two 2-day experiential workshops in Chennai done at the beginning and at the middle of the six months. Attending these workshops will be compulsory.
- ◆ A 2.5-hour group coaching call every fortnight which you can take from your home (either via telephone or web). 80 per cent overall attendance on these calls are compulsory.
- ◆ Practical assignments would be given after every group coaching call and the workshops. In total there will be 12 assignments and all will be compulsory to submit for certification.

The entire program would be based on the principles of coaching and group coaching. We will use a model of Integral Education. The program is not about giving advice to teachers and principals – rather we will provide a deep, insightful and reflective space where the teachers can discover their own inspiration for holistic education; use the model to arrive at their own ways of imparting integral education; and discover their full potential to forward this purpose in their institutions. We believe a course like this is unique and one of the first of its kind in India.
